

When Veronika sent me her book, I was really anxious to see it. This model had worked with all the artists I know and many more as I discovered later! Artists are Michael Calandra, Pamelina, Lorenzo Sperlonga, Will Kramer, Lorenzo Di Mauro, Dorian Cleavenger, Sonia Roji, Ronnie Werner, Jeff Pitarelli and many more. So why this book? A "muse"

is a model who inspires photographers and painters and Veronika is just that. In this book you will find excellent photography and from those pictures, you will be able to see what inspired the artists. Quite incredible may I add. This little lady is also a clothing designer, runs an art gallery and a fine art model. A friend told me: "The fact is - the people of this world who never risk anything never lose anything. And people, who take chances, also take risks. The alternative is to do nothing, and the world would be a very boring, miserable, dreary place without taking chances here and there. You have tried to create something, which makes you a very special person."

This also makes Veronika a special person; she creates.
